GOTRACK

GOTRACK is a GPS Based mobile application for managing your business delivery and pickup services, you can use GoTrackApp for your business like Pickup & Delivery, Beauty Services, Repair Services, Home Services,Health and Well Being and any type of Businesses that needs to monitor daily activity task in realtime.GOTRACK is designed to maximize the employee productivity, improve customer service, and promote efficiencies.

Digital Proof of Delivery

Capture digital signatures, photos and notes and store them in one central place.Reduce your missed delivery count. Reduce customer complaints From pick up to drop off,you and your customer will know your driver's every move.

Real time Tracking and Alerts

No more waiting till the days end for status updates. Be notified instantly, all the time! Logistics operations is now real, know when it happens as it happens.Automatically send branded tracking and alerts to your drivers and customers

Live Management Dashoboard

A web-based platform for managing delivery operations. This includes dispatch functionality that allows dispatchers to assign tasks manually or automatically . Additionally, they can track drivers through a map, communicate with drivers, analyze and monitor delivery efficiency through reporting.

Customer Notifications

A branded mobile experience for tracking deliveries. The customer receives an SMS with a link to an HTML 5 application that allows them to track their delivery on a map. Additionally, they can communicate with their driver by message or phone, rate the driver as well as tip them.

iOS and Android Driver Apps

Every driver in your fleet will have an IOS or Android GoTrack Driver App.You can assign new jobs, send daily run sheets without paper, optimise the batching per driver, record the delivery completions for reporting, track your whole fleet and send real-time delivery updates to the receiver.

Real-Time Service Feedback

Monitor your driver's service and performance. Monitor customer feedback in real-time. Turn a bad experience around before it leaks on social media and google. Convert and upsell every customer to return and buy again and again from your website.
